Nationality: Nigerian

BACKGROUND

CAREER OBJECTIVE

I am a dedicated Full stack/A.I Engineer in training, passionate about building responsive, user friendly website. I am eager to grow my technical skills through hands on projects and collaborative learning. I aim to help small, medium and large scale businesses with simplified tech-tools to improve their business productivity and daily life as well.

PERSONAL PROFILE

Highly organized, detail-oriented, and approachable, I excel in both technical and managerial role. I am committed to supporting my colleagues and contributing to team success. My strength lies in combining strong administrative skills with hands-on engineering knowledge to achieve goals, and I am always enthusiastic about learning new technologies.

SKILLS AND SOFTWARE PROFICIENCY
